BIT·CHESS

Bit-Chess®

SOLANA

The first of it´s kind.
We merge chess with Solana Blockchain Technology.
Don´t miss the next revolution.

We will revolutionize one of the oldest and most popular strategy games that millions of people play every day: Chess

Bit-Chess will be a chess platform based on a Blockchain-Version. We are bringing the First Chess Game in conjunction with the Web3 on a play-to-earn basis. With the advantage that every player who joins our universe and plays chess with us can also earn something.

So ask yourself the question:

Why should anyone play chess on another platform in the future? You don´t have to reinvent the wheel, just turn it in the right direction.

On our free Bit-Chess platform (dApp/web) you no longer just play for fun, you also get rewarded for it. According to market analysis, several million people play chess online every day. Our goal is to become the leading platform for global online chess. In order to implement this, there are a few factors that can only be traced back to our Bit-Chess.

- Play-to-earn
- Worldwide tournaments with prize money or NFTs
- Player vs. Player
- Special NFTs
- Burn
- and much more

The Bit-Chess-Coin $BCC is the fuel
for our Bit-Chess universe!

Insight
Play To Earn mechanics, NFTs and loan NFTs.

1. Token: Bit-Chess Coin ($BCC):
Bit-Chess uses a single token called Bit-Chess Coin ($BCC). This token serves several functions in the Bit-Chess universe:

Rewards: $BCC can be earned by winning games, solving puzzles, participating in tournaments, and daily, weekly, and monthly challenges. It can be exchanged for real currencies on crypto exchanges.

Breeding and Improvement: $BCC is used for fusing and improving NFT chess pieces.

Marketplace: $BCC is used for buying and selling chess pieces and other in-game items on the Bit-Chess marketplace.

Governance: $BCC holders can vote on important decisions regarding the development and management of the game.

Staking: Stake your $BCC Tokens in the Bit-Chess universe.

2. Bit-Chess NFT-Marketplace:
Chess pieces and other in-game items can be bought, sold and borrowed on the Bit-Chess Marketplace. The marketplace uses the Solana blockchain for secure, fast, cost-efficient and transparent transactions.

3. Digital chess pieces (Bit-Chess Pieces):
Bit-Chess uses digital chess pieces as NFTs, from pawns to kings. Each piece has unique characteristics and abilities determined by its digital genes. These pieces can be bought, bred, traded and borrowed on the Bit-Chess marketplace.

Insight

Play To Earn mechanics, NFTs and loan NFTs.

4. Loan NFTs:

New players have the option to borrow chess pieces (NFTs) to participate in the game. These loan NFTs are provided by other players or the game itself and are subject to certain conditions:

Loan contract: The loan contract determines what percentage of the rewards earned go to the owner of the NFT until the player has paid the full value of the NFT.

Trigger mechanism: Players can fully acquire the borrowed piece by earning enough $BCC and paying the outstanding amount.

Return option: If a player no longer wishes to continue playing, the borrowed NFT can be returned, subject to a predetermined return fee.

5. Gameplay:

The game offers various modes that combine traditional chess games with modern blockchain mechanisms to earn rewards in $BCC.

Example:

Classic Chess (PvP): Players compete against each other in classic chess games, tournaments, completing various daily, weekly, monthly challenges and much more.

Bit-Chess Adventure Mode: By integrating Bit-Chess NFTs, players fight against computer-controlled opponents or real players in the themed Bit-Chess universe in chess puzzles and campaigns to earn rewards and improve their pieces.

6. Breeding (Fusion):

Players can fuse two chess pieces to create a new, unique piece. This process requires a certain amount of Bit-Chess Coin ($BCC) and is crucial to creating new and powerful pieces.
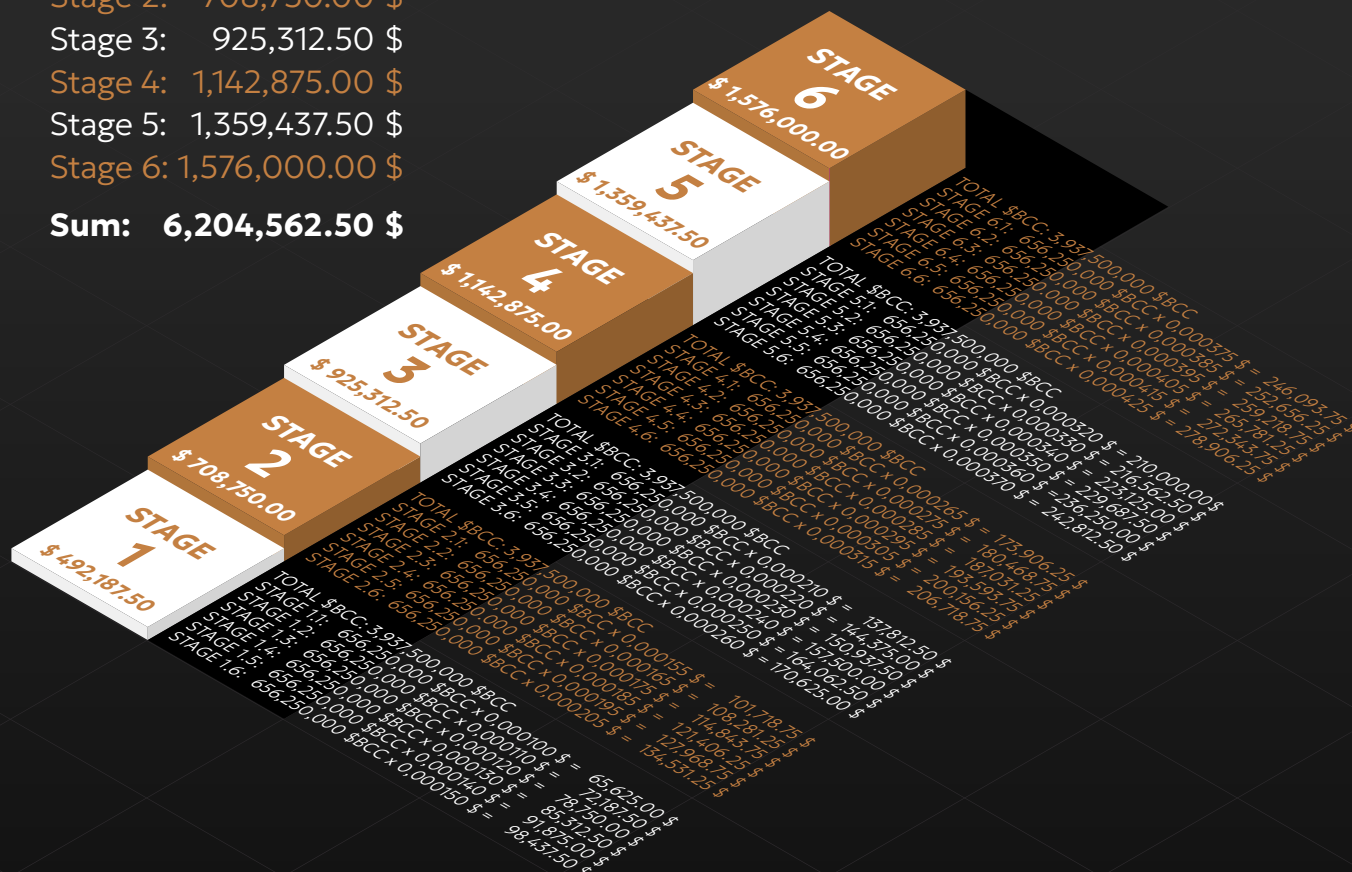

Presale Landscape

Presale Stages
Total 23,625,000,000 $BCC

**Each stage includes 6 sub-stages
with 656,250,000 $BCC per sub- stage.**

Stage 1:   492,187.50 $
Stage 2:   708,750.00 $
Stage 3:   925,312.50 $
Stage 4:   1,142,875.00 $
Stage 5:   1,359,437.50 $
Stage 6:   1,576,000.00 $

Sum: 6,204,562.50 $

STAGE 6
$ 1,576,000.00

STAGE 5
$ 1,359,437.50

STAGE 4
$ 1,142,875.00

STAGE 3
$ 925,312.50

STAGE 2
$ 708,750.00

STAGE 1
$ 492,187.50

TOTAL $BCC: 3,937,500,000 $BCC
STAGE 6.1:   656,250,000 $BCC × 0.000375 $ = 246,093.75 $
STAGE 6.2:   656,250,000 $BCC × 0.000385 $ = 252,656.25 $
STAGE 6.3:   656,250,000 $BCC × 0.000395 $ = 259,218.75 $
STAGE 6.4:   656,250,000 $BCC × 0.000405 $ = 265,781.25 $
STAGE 6.5:   656,250,000 $BCC × 0.000415 $ = 272,343.75 $
STAGE 6.6:   656,250,000 $BCC × 0.000425 $ = 278,906.25 $

TOTAL $BCC: 3,937,500,000 $BCC
STAGE 5.1:   656,250,000 $BCC × 0.000320 $ = 210,000.00 $
STAGE 5.2:   656,250,000 $BCC × 0.000330 $ = 216,562.50 $
STAGE 5.3:   656,250,000 $BCC × 0.000340 $ = 223,125.00 $
STAGE 5.4:   656,250,000 $BCC × 0.000350 $ = 229,687.50 $
STAGE 5.5:   656,250,000 $BCC × 0.000360 $ = 236,250.00 $
STAGE 5.6:   656,250,000 $BCC × 0.000370 $ = 242,812.50 $

TOTAL $BCC: 3,937,500,000 $BCC
STAGE 4.1:   656,250,000 $BCC × 0.000265 $ = 173,906.25 $
STAGE 4.2:   656,250,000 $BCC × 0.000275 $ = 180,468.75 $
STAGE 4.3:   656,250,000 $BCC × 0.000285 $ = 187,031.25 $
STAGE 4.4:   656,250,000 $BCC × 0.000295 $ = 193,593.75 $
STAGE 4.5:   656,250,000 $BCC × 0.000305 $ = 200,156.25 $
STAGE 4.6:   656,250,000 $BCC × 0.000315 $ = 206,718.75 $

TOTAL $BCC: 3,937,500,000 $BCC
STAGE 3.1:   656,250,000 $BCC × 0.000210 $ = 137,812.50 $
STAGE 3.2:   656,250,000 $BCC × 0.000220 $ = 144,375.00 $
STAGE 3.3:   656,250,000 $BCC × 0.000230 $ = 150,937.50 $
STAGE 3.4:   656,250,000 $BCC × 0.000240 $ = 157,500.00 $
STAGE 3.5:   656,250,000 $BCC × 0.000250 $ = 164,062.50 $
STAGE 3.6:   656,250,000 $BCC × 0.000260 $ = 170,625.00 $

TOTAL $BCC: 3,937,500,000 $BCC
STAGE 2.1:   656,250,000 $BCC × 0.000155 $ = 101,718.75 $
STAGE 2.2:   656,250,000 $BCC × 0.000165 $ = 108,281.25 $
STAGE 2.3:   656,250,000 $BCC × 0.000175 $ = 114,843.75 $
STAGE 2.4:   656,250,000 $BCC × 0.000185 $ = 121,406.25 $
STAGE 2.5:   656,250,000 $BCC × 0.000195 $ = 127,968.75 $
STAGE 2.6:   656,250,000 $BCC × 0.000205 $ = 134,531.25 $

TOTAL $BCC: 3,937,500,000 $BCC
STAGE 1.1:   656,250,000 $BCC × 0.000100 $ = 65,625.00 $
STAGE 1.2:   656,250,000 $BCC × 0.000110 $ = 72,187.50 $
STAGE 1.3:   656,250,000 $BCC × 0.000120 $ = 78,750.00 $
STAGE 1.4:   656,250,000 $BCC × 0.000130 $ = 85,312.50 $
STAGE 1.5:   656,250,000 $BCC × 0.000140 $ = 91,875.00 $
STAGE 1.6:   656,250,000 $BCC × 0.000150 $ = 98,437.50 $

Overall overview
Total amount for all stages: $ 6,204,562.50

The total number of $BCCs remains the same for each stage, but the prizes per $BCC increase in the sub-stages, resulting in a total of approximately $6.2 million. This ensures that the pricing structure is progressive and the token distribution remains even across all stages.

**To provide the highest ROI to early investors.**

Bit-Chess®
Eco System

Together we want to show the world that Bit-Chess with the Bit-Chess-Coin $BCC is there to stay. We have a clear vision that describes the path of the chess revolution:

Play-to-earn
## Play and get rewarded with our $BCC

Every player receives rewards by simply playing, completing certain challenges and much more.

Tokenomics

Max. Supply	210,000,000,000	$BCC	100.0%
Presale	23,625,000,000	$BCC	11.25%

Presale	These are reserved for the presale NFTs only for presale participants (see page X
Partner	These are reserved for partners
Marketing	Will be invested in marketing evenly over the next 10 years
Team	Vesting for 6 month and distributed equally over 12 months
DEX/CEX	Liquidity for exchanges
Treasury	Vesting period for 16 years
Staking	Reward for short, medium and long term investors
Rewards/ Tournaments	These will be distributed equally over 16 years

Vesting plan for the 6 stages

Overall structure:

Total number of $BCC per stage (1-6): 3,937,500,000 $BCC (per stage)
Total $BCC for all stages: 23,625,000,000 $BCC (for all 6 stages)
Total Fundraise: $6,204,562.5 (Goal)

Stage 1 Vesting:

Vesting start: Immediately after the launch
Vesting-Plan: 10% release at launch
Remaining: 90% linearly over 12 months

Stage 2 Vesting:

Vesting start: after launch
Vesting-Plan: 20% release at launch
Remaining: 80% linearly over 12 months

Stage 3 Vesting:

Vesting start: after launch
Vesting-Plan: 30% release at launch
Remaining: 70% linearly over 12 months

Stage 4 Vesting:

Vesting start: after launch
Vesting-Plan: 35% release at launch
Remaining: 65% linearly over 12 months

Stage 5 Vesting:

Vesting start: after launch
Vesting-Plan: 40% release at launch
Remaining: 60% linearly over 12 months

Stage 6 Vesting:

Vesting start: after launch
Vesting-Plan: 50% release at launch
Remaining: 50% linearly over 12 months

This vesting schedule ensures that early investors remain locked in longer as they only gradually gain access to their full tokens, minimizing the risk of a quick "pump and dump" scenario. Later investors have greater initial clearance but also a long vesting period to keep the market stable. The remaining tokens can be claimed daily or after the end of the vesting period.

Raffle of special NFTs across all 6 stages

NFT Tiers and Distribution

Bronze NFT (200 pieces):
Raffle: Stage 1 and Stage 2
Participants: Every investor who invested in Stage 1 or Stage 2 has a chance to win a Bronze NFT.
Raffle time: At the end of Stage 2

Gold NFT (100 pieces):
Raffle: Stage 5 and Stage 6
Participants: Every investor who invested in Stage 5 or Stage 6 has a chance to win a Gold NFT.
Raffle time: At the end of Stage 6

Silver NFT (150 pieces):
Raffle: Stage 3 and Stage 4
Participants: Every investor who invested in Stage 3 or Stage 4 has a chance to win a silver NFT.
Raffle time: At the end of Stage 4

Platinum NFT (50 pieces):
Raffle: All stages
Participants: Every investor who invested in any of the 6 stages has a chance to win a Platinum NFT.
Raffle time: At the end of Stage 6

Raffle details

Raffle mechanism:
The draw is carried out through a transparent and automated system to ensure fairness. Winners will be announced publicly and will receive their NFTs within a set period of time after the draw.

Conditions of participation:
To take part in the raffle, investors must have invested by the end of the respective stage. Each investor can only win once per NFT stage, but multiple NFTs can be won if invested in different stages.
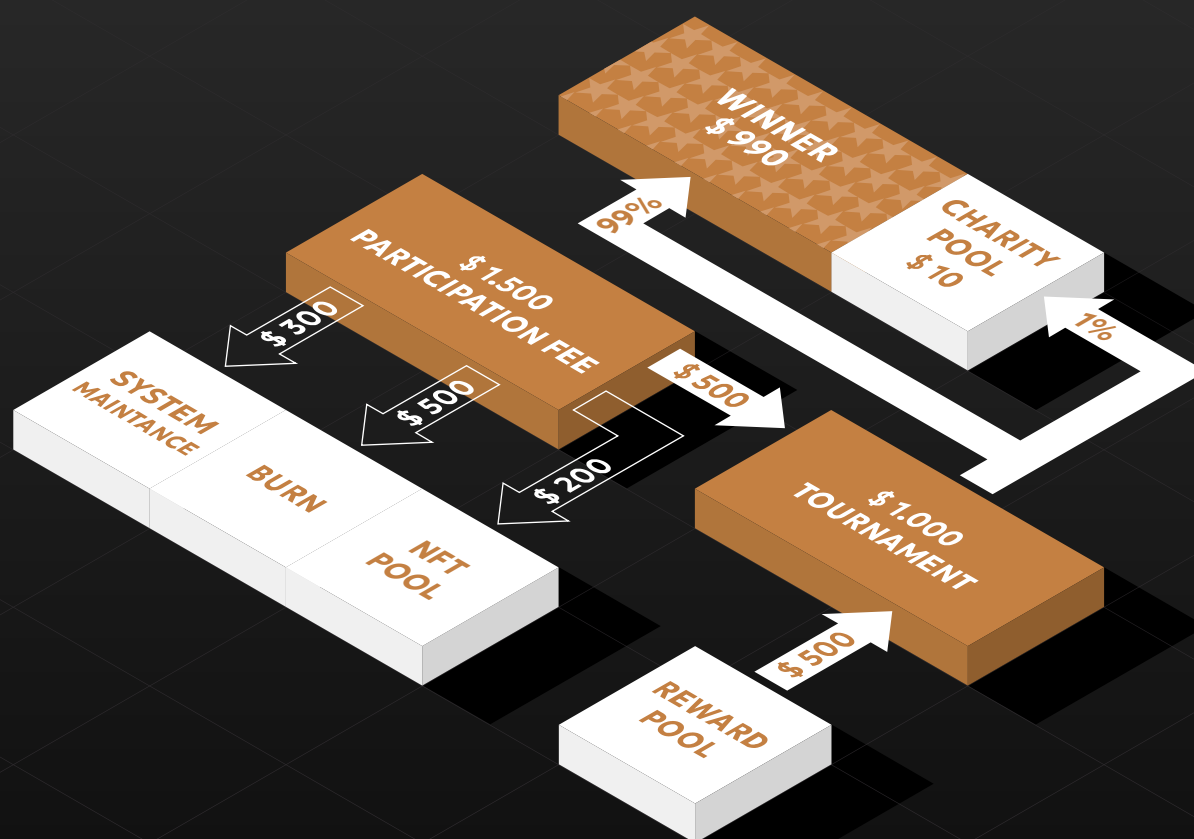

Tournaments

Small to large tournaments with and without prize money take place all the time.

After several rounds of games and obtaining your Elo rank and with the help of AI and KYC, we ensure a fair gaming system where fraud is ruled out.

Each player has their own in-game fingerprint. You can then take part in the tournament with prize money/NFTs by paying a small entry fee. Either in the form of $BCC or simply in one of many other payment options, to give everyone access as easily as possible.

Example with 1,000 players (participation fee $ 1.50)

There are many more exciting variations and tournaments with NFTs in the prize pool to come.

Smart Contract Bit-Chess®

The Smart Contract for Bit-Chess is developed by Solidproof.io and audited also by a third party. Solana is the Blockchain where Bit-Chess will unleash the power of the technology for mass adoption.

Bit-Chess®
NFT-Marketplace

500 from 2,000 special NFTs from Bit-Chess Marketplace will be raffled during the presale in different stages. These NFTs guarantee a much higher stacking ROI.

1,500 special NFTs are managed by the Team for tournaments, auctions, giveaways and more.

BRONZE 200 NFTs   **SILVER 150 NFTs**   **GOLD 100 NFTs**   **PLATIN 50 NFTs**

Staking Tokenomics

Passive Rewards with $BCC.
We reward our early stakers with a 25% minimum stake reward in the first year. You not only contribute to the security and growth of the network, but you also earn a significant reward.

Staking-Reward Allocation 21,000,000,000 $BCC
1st year: 7,875,000,000 $BCC
1st year guaranteed staking compensation of at least 25% and higher.

After 1 year, the community decides like the remaining 13,125,000,000 $BCC should be distributed.
There will be different models to choose from!

Bit-Chess®
Merchandise Store
with BuyBacks

We implement a merchandise store in the Bit-Chess-Universe of our Bit-Chess Brand. Every single earning from the store will be used for BuyBacks in our $BCC Ecosystem. We connect our Store to the Solana Blockchain and bring every single earning back to the Project. This will all show up transparent on our Bit-Chess-Universe.

Roadmap

Phase 1 — Foundation

Smart Contract development
Secure and audited smart contract for the $BCC (Bit-Chess-Coin) to ensure transparency and trust.

Community building
Building a strong community.

Branding & Marketing
Spreading our Bit-Chess project through a comprehensive marketing campaign.

Development
Development of the Bit-Chess platform so that everyone can play on our platform with ease and use all the possibilities such as staking.

Phase 2 — Launch

Token Launch
Official launch of the $BCC token.

DEX
Launch of $BCC on popular DEX with sufficient liquidity and accessibility.

CEX
Expanding our listing on well-known CEXs. So that we can increase our awareness and reach even more people.

Partnerships
In collaboration with Influencers on various media platforms, we want to bring Bit-Chess into the mainstream.

Platform
Release of the Bit-Chess platform, with many exciting surprises and a free chess tournament with a prize pool of $100,000.
